Art Unit: 2819

#### **DETAILED ACTION**

#### **Priority**

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

#### Information Disclosure Statement

2. The information disclosure statement filed on 4/11/2006 has been considered.

#### **Drawings**

3. The drawings are objected to because in figure 2, one of the outputs of comparator C<sub>n+1</sub> must be labeled O<sub>n+1</sub>. Figure 2 shows both outputs to be /O<sub>n+1</sub>. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the

applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

## Specification

4. The disclosure is objected to because of the following informalities: The preferred layout (Background of the Invention, Summary of the Invention, etc...) is missing.

Appropriate correction is required.

## Claim Rejections - 35 USC § 112

- 5. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 6. In claim 7 line 3 the term ...", on the one hand, on the other hand, and a ..." is unclear. Please correct.

### Allowable Subject Matter

- 7. Claims 5-7 are allowed.
- 8. Claim 8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
- 9. The following is an examiner's statement of reasons for allowance: Yaklin fails to teach a comparison circuit that comprises a network of comparators whose differential outputs are coupled to a plurality of voltage followers circuits, the outputs of the voltage followers circuits are coupled to a first network of resistors coupled to receive the average voltages of the positive outputs of the comparators and a second network of

Application/Control Number: 10/575,273

Art Unit: 2819

resistors coupled to receive average voltages of the complementary outputs of the

comparators; the reference voltages of the comparator are distributed over a range in

which the analog voltage can vary.

Any comments considered necessary by applicant must be submitted no later

Page 4

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."

Conclusion<sup>®</sup>

10. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Peguy JeanPierre whose telephone number is (571)

272-1803. The examiner fax phone number is (571) 273-1803.
